Claim 5, lines 20 and 21, the phrase "as said bottom surface of said first body portion to cut flooring material" has been deleted.

Claim 5, line 21, "front face" has been changed to --said first body portion--.
4. The following is an examiner's statement of reasons for allowance: claim 5 is allowable for setting forth a cutting device comprising a base body having a first lateral body portion and a second lateral body portion, a mounting means extending from the first lateral body portion into a recess in the second lateral body portion, a plurality of spacer plates mounted in the recess and a cutting blade. peripheries of the adjacent spacer plates and a second position positioned forwardly of the front end of the first lateral body portion and below the bottom surface of the first lateral body portion to cut a flooring material as the bottom surface of the first lateral body portion is moved along the flooring material.

Pierce (4,354,314) teaches a cutting device comprising a base body having a first lateral body portion (15,16) and a second lateral body portion (24) and a cutting blade.
